Domino's Pizza (Former), 1035 Indiana Avenue, Sheboygan

Three gasoline underground storage tanks removed in 1976

Dear Mr. Conklin:

The Wisconsin Department of Commerce (Commerce) has received all items required as conditions for closure of the site referenced above. This case is now listed as "closed" on the Commerce database and will be included on the Wisconsin Department of Natural Resources (WDNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual contamination. It is in your best interest to keep all documentation related to the environmental activities that were conducted.

If residual contamination is encountered in the future, it must be managed in accordance with all applicable regulations. If it is determined that any remaining contamination poses a threat, the case may be reopened and further investigation or remediation may be required. If applicable, the PECFA claim for this site would also be reopened and you may apply for assistance to the extent of remaining eligibility.

Thank you for your efforts to bring this case to closure. If you have any questions, please contact me in writing at the letterhead address or by telephone at (414) 220-5376.

Sincerely,

A handwritten signature in black ink, appearing to read 'Linda M. Michalets'.

RE: **Conditional Case Closure**

**Commerce # 53081-4912-35**      **WDNR BRRTS # 03-60-270654**  
Domino's Pizza (Former), 1035 Indiana Avenue, Sheboygan

Three gasoline underground storage tanks removed by 1976

Dear Mr. Conklin:

The Wisconsin Department of Commerce (Commerce) has reviewed the request for case closure prepared by your consultant, Northern Environmental Technologies, Inc., for the site referenced above. It is understood that residual soil and groundwater contamination remains on-site. Commerce has determined that this site does not pose a significant threat to the environment and human health. No further investigation or remedial action is necessary.

**The following condition must be satisfied to obtain final closure:**

- The five monitoring wells must be properly abandoned and the appropriate documentation forwarded to me at the letterhead address.

This letter serves as your written notice of "no further action". Timely filing of your final PECFA claim (if applicable) is encouraged. If your claim is not received within 120 days of the date of this letter, interest costs incurred after 60 days of the date of this letter will not be eligible for PECFA reimbursement.

Thank you for your efforts to protect Wisconsin's environment. If you have any questions, please contact me in writing at the letterhead address or by telephone at (414) 220-5376.

Sincerely,

A handwritten signature in dark ink, appearing to read 'L. M. Michalets', with a long, sweeping horizontal line extending to the right.

RE: Signed Statement, Former Domino's Pizza, 1035 Indiana Avenue, Sheboygan, Wisconsin

Dear Mr. Timm:

The parcel ID # for the above-referenced site from the Sheboygan County Register of Deeds is 300550. The most recent deed and survey map are enclosed. I, Craig Conklin, am providing a signed statement that the legal descriptions and attachments to this statement are, to the best of my knowledge, complete and accurate.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. Conklin', written over a horizontal line.

Mr. Thomas J. Holtan, PE  
Director of Public Works  
City of Sheboygan  
833 Center Avenue  
Sheboygan, Wisconsin 53081

RE: GIS Registry Closure Requirements

Dear Mr. Holtan:

Petroleum-contaminated soil and ground water that originated from the former Domino's Pizza property located at 1035 Indiana Avenue, Sheboygan, Wisconsin has migrated onto the city of Sheboygan right-of-way along Indiana Avenue, Sheboygan, Wisconsin (Wisconsin Department of Natural Resources [WDNR] BRRTS #03-60-270654). The levels of petroleum contamination in the ground water along the city of Sheboygan right-of-way are above the state ground-water enforcement standards (ES) found in Chapter NR 140, Wisconsin Administrative Code (NR 140, Wis. Adm. Code) and in soil exceed the NR 720, Wis. Adm. generic residual contaminant levels (RCLs). However, the released petroleum has been investigated, and the residual ground-water contaminant plume is stable or receding and will naturally degrade over time. I believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in NR 726, Wis. Adm. Code, and I will be requesting that the WDNR accept natural attenuation as the final remedy and grant case closure. Closure means that the WDNR will not require any further investigation or cleanup action to be taken, other than the reliance on natural attenuation.

Since the source of the petroleum-related soil and ground-water contamination is not on your property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this ground-water contamination, as long as you and any subsequent owners comply with the requirements of Section 292.13, Wisconsin Statutes (s.292.13, Wis. Stats), including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of s. 292.13, Wis. Stats., you may call (800) 367-6076 for calls originating in Wisconsin or (608) 264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the WDNR's publication #RR-589, Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination."

The WDNR will not review my closure request for at least 30 days after the date of this letter. As an affected property owner, you have a right to contact the WDNR to provide any technical information that you may have that indicates that closure should not be granted to this site. If you would like to submit information to the WDNR that is relevant to this closure request, you should mail that information to:

Ms. Victoria Stovall  
Wisconsin Department of Natural Resources  
Remediation & Redevelopment Program  
Post Office Box 12436  
Milwaukee, Wisconsin 53212

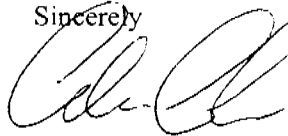

If this case is closed, all properties within the site boundaries where ground-water contamination exceeds the NR 140, Wis. Adm. Code ground-water ES and soil contamination exceeds the RCLs will be listed on the WDNR's geographic information system (GIS) Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where ground-water contamination above NR 140, Wis. Adm. Code ES and soil exceeding the RCLs was found at the time that the case was closed. This GIS Registry will be available to the general public on the WDNR's Internet web site.

Should you or any subsequent property owner wish to construct or reconstruct a water supply well on your property, special well construction standards may be necessary to protect the well from the residual ground-water contamination. Any well driller who proposes to construct a water supply well on your property in the future will first need to call the Diggers Hotline ([800] 242-8511) if your property is located outside of the service area of a municipally-owned water system, or contact the Drinking Water program within the WDNR if your property is located within the designated service area of a municipally-owned water system, to determine if there is a need for special well construction standards.

Once the WDNR makes a decision on my closure request, it will be documented in a letter. If the WDNR grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above, or by accessing the WDNR GIS Registry of Closed Remediation Sites on the internet at [www.dnr.state.wi.us/org/at/et/geo/gwur](http://www.dnr.state.wi.us/org/at/et/geo/gwur). A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.

If you need more information you may contact Mr. John Timm (Northern Environmental) at (262) 241-3133 or you may contact Ms. Victoria Stovall (WDNR) at (414) 263-8688.

Sincerely

A handwritten signature in black ink, appearing to read 'Craig Conklin', written over a horizontal line.

Mr. Craig Conklin

c: John Timm, Northern Environmental  
Victoria Stovall, WDNR
